# OASIS WATERFALLS

by Super Vision International

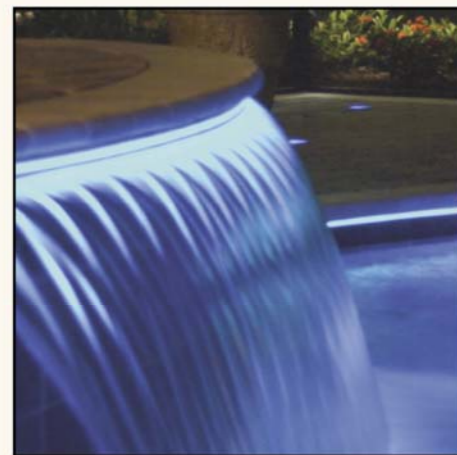

Oasis waterfalls are designed to stimulate your sense of sight, sound and touch with gentle rainfall effects, smooth falling water and dramatic visual beauty. All Oasis waterfall products are manufactured with the highest quality standard for residential and commercial applications.

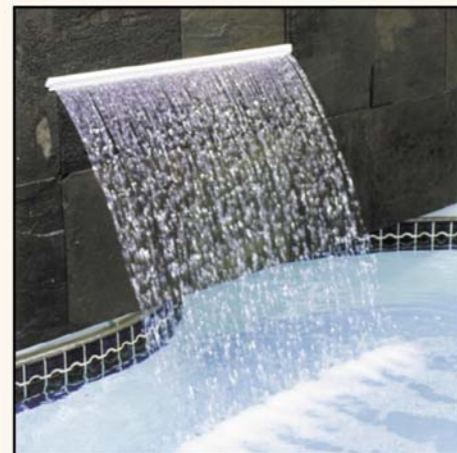

## Oasis Original Waterfall™

By far the most popular waterfall we offer, the Oasis Original Waterfall creates a near perfect lamina flow of water that is so sought after by those who demand the best. The "Original" is also versatile and can be adapted to curves and is available in standard lengths up to 8 feet long.

## Novafall™

We have taken the Oasis Original Waterfall and added SVI fiber optic lighting and the results are stunning. The undeniable effects of this unique combination of water, light and sound has quickly made the Novafall one of our most popular products.

## RainForest Waterfall™

Add another dimension to your backyard environment. With the sounds of a summer rainshower and a rich visual texture that delights the touch and mesmerizes the eye...built with the same reliability and quality construction of the Oasis Original Waterfall.

*Experience The Magic ...  
...Experience The Night*
