

Traditional lighting can change the way your pool looks, but fiber optic lighting will change the way you look at your pool. With the color changing feature you can literally change the mood of the evening. From subtle to exciting, there is a whole range of colors to choose from. Select ocean Deep Blue, Indigo Blue or Tangerine Dream, Moonlight White or for some real excitement Hot Pink or Lime Green. Or just set it on your favorite color for the whole night. It's your choice. And when you choose SUPER VISION INTERNATIONAL, you can be assured that you've chosen quality and reliability from the leader in fiber optic lighting worldwide.

"My fiber optic lighting system represents only 10% of the investment, but it's 90% of the enjoyment"

FIBER OPTIC LIGHTING

by Super Vision International

Super Vision International is a world leading manufacturer of fiber optic lighting products for swimming pools and spas. Fiber optic lighting provides you all the benefits of safe, colorful lighting and unique applications in one system. It is the total lighting solution for your pool and spa, deck and landscaping. Experience the Magic..... Experience the night.....™

Underwater Lighting

Crystal clear illumination

Illuminate the crystal clear water of your pool with fiber optic underwater lighting. SVI's underwater lighting lets you set the mood of the evening. Fiber optic technology is the safest way to magically illuminate your pool.

There is no heat or electricity in the fiber optic cable; so service at the underwater lens fixture is eliminated. Transform your pool or spa into an extraordinary dimension of brilliant light.

Perimeter Lighting

Defining your pool - Perimeter Lighting

Paint the line of your pool with a stunning pallet of glowing colors. Outline the perimeter of your pool or spa or highlight your steps with SideGlow® cable. Your design ideas can become a reality with versatile fiber optic lighting. SideGlow® cable is safe, durable and virtually invisible during the daytime.

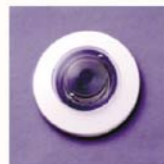

Add a touch of elegance and drama that your guest will be talking about all night long with SideGlow® perimeter cable.

Landscape Lighting & Water Features

A complete lighting system

SVI's lighting system not only enhances your swimming pool and spa but also the deck, water features and landscaped areas. Custom design your own backyard oasis with safe fiber optic lighting. Let SVI's Pathway lighting safely light the way. Or illuminate your brick deck, walkway or driveway with exciting illuminated pavers. Feature lights can brighten raised walls or add colorful interest behind a waterfall.

When these lighting ideas are combined with your underwater or perimeter lighting system, it will change the way you see and use your pool forever.
